

Maturing in Christ Pipeline

God designed both physical growth and spiritual growth to be progressive. We must be proactive in each stage of our development in order to progress to the next. This pipeline illustrates the parallel between physical and spiritual growth and indicates what needs to transpire spiritually in each stage of our development. We can use this illustration to gauge our maturity in Christ based on a key benchmark in each stage. Without proactive engagement on our part, we will stagnate or fail to thrive, never reaching the next stage of our spiritual growth.
